Prome Minister Evelyn Wever - Croes:

A FIRMA LETTER OF INTENT (LOI) ENTRE REFINERIA DI ARUBA (RDA), QUANTEN CONSORTIUM Y EAGLE LNG

'Aruba ta drentando un etapa nobo cu diferente posibilidad y ta spera cu e etapa aki ta uno fructifero'

Diamars 15 di december 2020 tabata un dia hopi importante como cu a firma Letter of Intent (LOI) entre Refineria di Aruba (RdA), Quanten Consortium y Eagle LNG. Prome Minister Evelyn Wever - Croes a expresa gran optimismo cu e paso aki ta na e miho interes di Pais Aruba.

Gobierno a inicia un proceso di Request for Expression of Interest na comienso di e pandemia di Covid caminda cu a haci invitacion na inversionistanan local y internacional pa nan expresa nan interes den un proyecto na Aruba. Un proyecto cu sea ta reapertura di refineria of otro proyecto cu por genera mesun desaroyo economico cu ta buscando den un refineria.

E proceso aki Gobierno no a haci'e riba su mes. Gobierno a institui un comision totalmente independiente pa haci e trabou aki. E comison a wordo lidera pa sr. Renny Arends cu ta director interino di RdA y den e comision tabatin personanan cu experticio riba e tereno di refineria, huridico, economico y di medio ambiente. A scoge un grupo diverso pa asina por tene cuenta cu tur aspecto cu ta buscando, Prome Minister Wever - Croes a splica.

A publica e anuncionan aki localmente y internacionalmente y a haya hopi interes. Despues di e procedura independiente cu tabata den man di e comision, dos siman pasa Gobierno a haya conseho pa continua cu e siguiente fase cual ta e fase di negociacion. Pues aki ta trata di dos compania cu a pasa door di e proceso di Request for Expression of Interest, evaluacion di e proyectonan y tabatin combersacion cu nan. Nan por a bin y mira kico nos tin na Aruba y nan a bolbe y nan a keda, pa cual awo nan a wordo scogi pa bay den e siguiente fase. Awor lo bay trata e detayenan di un acuerdo y tambe lo bay haci e "financial due diligence" pa mira nan forsa financiero y pa

mira con ta bay haci cu e proyecto na Aruba. Ambos compania tawata presente diamars na Aruba pa firma e documentonan pa asina nan por drenta e fase nobo.

'Mi ta sumamente contento y e ta un dia sumamente grandi. Tabatin momentonan di duda cu si berdad lo yega na e etapa aki, pero nos a yega asina leu y nos tin companianan serio cu ta interesa den yuda nos desaroya nos economia. Y na e momentonan aki sinceramente Aruba tin mester di tur ayudo cu por haya pa por lanta nos Pais bek economicamente. Nos ta drentando un etapa nobo cu diferente posibilidad y ta spera cu e etapa aki ta uno fructifero", Prome Minister a expresa.

A gradici e companianan pa nan interes y confiansa demostra den Aruba y alabes desea exito den e procesonan. 'Covid a dal nos duro, pero nos tin e confiansa cu nos tin mihor tempo nos dilanti', Prome Minister Wever - Croes a termina bisando.

Prome Minister Evelyn Wever - Croes:

COLEGIO PASTOOR KRANWINKEL A HAYA BORCHI DIGITAL COMO PARTI DI E PROYECTO E-LEARNING

Diamarsa mainta, Prome Minister Evelyn Wever-Croes tabata di bishita na Colegio Pastoor Kranwinkel pa admira un bunita proyecto di innovacion den enseñansa na unda cu cada klas a haya nan borchi digital como parti di e proyecto E-Learning. A cuminsa cu e proyecto ya caba dos aña pasa y e prome scol cu a wordo scogi tabata Cacique Macuarima. Hunto cu Futura, e fundacion cu ta yuda den innovación, a scoge Colegio Pastoor Kranwinkel pa diferente factor. Entre otro e animo cu e docentenan tin, dedicacion y tur esfuerso y inversion cu nan a hinca caba nan mes, pa por yega na medionan digital nobo.

“E resultado di e proyecto na Pastoor Kranwinkel hopi bunita y ta tanto e studiantenan ta come e docentenan ta hopi contento cu e realisacion di e proyecto aki. Ohala cu por a yuda tur scol mesora cu e borchinan aki, pero lamentablemente e fondo no tey pa esey. Pero ta great pa mira cu poco poco ta logra pa asina crea miho fundeshi pa nos comunidad. Mi ta felicita e scol tanto cabesante como docentenan pa e forma con nan a brasa e proyecto y haci’e un exito,” Premier Wever-Croes a termina bisando.

DIMAS:

CAMBIO DEN MANEHO DI ADMISION RELACIONA CU EFECTONAN DI E CRISIS DI COVID-19

E pandemia di COVID-19 a trece hopi reto pa Aruba, di cual entre otro e crisis social economico. Ya pa algun tempo un comision den e cadena di stranheria for di ministerio di labor y di husticia a bin hunto y a traha riba recomendacionnan den cuadro pa cuida e orden publico, salvaguardia e bienestar en general, e proteccion di nos economia y e mercado laboral local. Conseho di Minister y tambe Staten a haya un presentacion di dicho recomendacionnan y a tuma finalmente desicionnan respecto un maneho di admision mas restringi relaciona cu e crisis Covid19.

Personanan cu tin preferencia riba mercado laboral

A defini cual ta e personanan cu tin preferencia riba e mercado laboral pa loke ta trata e cuponan di trabou disponibel. Esakinan ta e grupo meta pa cual gobierno lo sigui haci tur esfuerso pa mantene of crea cuponan di trabou nobo pa nan, en caso esaki no a keda existente mas a consecuencia di e situacion economico den e sector particular

• Tur persona cu ta ser considera Arubiano
• Tur persona cu ta ser considera como Arubiano “nobo” dor cu nan a por ehempel naturalisa
• Tur persona cu tin admision segun ley na Aruba, por ehempel dor di nan tipo di trabou , nan nacionalidad of nan estado civil
• Tur persona cu tin un firma liber
• Hulandesnan en general
• Expat Arubiano cu kier regresa pa contribui na Aruba su economia

Resumen di e cambionan den e maneho di admision – introduci como medida temporal relaciona cu e situacion di e mercado laboral ocasiona dor di COVID 19 ta:

- A introduci un STOP riba promer peticion pa trahadornan Te cu pronto aviso peticionnan di prome permiso laboral lo NO wordo otorga, cu excepcion di esnan cu ta cay den e categoria di excepcionnan manera e migrante di conocemento (kennismigrant), key positions den sectornan defini, e inversionista y esnan cu lo traha den e promising sectors.

- Prolongacion di permiso limita
E mercado laboral a cambia di forma drastico cu ta resulta den un control mas estricto door di e autoridadnan concerni. Personanan cu tin menos di 5 permiso lo por haya un renovacion di nan permiso di trabou den caso cu e mercado laboral ta permiti y nan ta den poder di un documento positivo di DPL.

Continuacion CAMBIO DEN MANEHO DI ADMISION RELACIONA CU....

- Cambio di firma

1 - Cambio di firma (dunado di trabou) of funcion no lo ta posibel mas pa personanan cu tin menos cu 5 permiso, cu excepcion si e persona ta bay traha den un di e sectornan defini como prometedor.Promer permiso den exterior E regla principal cu ta bisa cu tur persona stranhero cu aplica pa un prome permiso mester warda e respuesta riba nan peticion den exterior, ta keda aplicabel. E maneho di exoneracion di esaki a ser limita y a bira mas estricto. Cierto gruponan cu prome cu e pandemia tabata conta cu un flexibilisacion, awor mester tene na cuenta cu esaki a wordo limita. Esaki ta conta principalmente pa esnan cu ta bin pa stage y pa prome permiso laboral regular, hasta si tin un documento positivo di DPL.

-Stop riba promer peticion pa reunificacion familiar

Mirando e cambionan riba mercado laboral unda gran parti di nos forsa laboral a perde nan entrada parcialmente of a perde trabou pa via di e crisis socioeconomico cu a surgi door di e pandemia. Di cual un gran parti ta personanan cu tin un permiso laboral. Pa e motibo aki tambe permisonan di reunificacion familiar, lo no wordo otorga mas te cu proximo aviso, cu excepcion si e garante ta cay bou di e categorianan di articulo 1, 3, 7 A y esnan cu ta cay bou di articulo 7 y ta wordo considera como di importancia vital.

-A hisa e norma di inversion pa obtene un permiso como actionista - inversionista

Un cambio mas cu a surgi ta e normativa pa e capital di un inversionista cu a bira Afl. 250.000,pa loke ta trata e capital cu un inversionista. E cambio aki ta alinea cu e maneho nobo di gobierno pa inversionistanan.

-Sectornan prometedor

Pa logra un diversificacion di e economia, a defini gruponan di migrante cu si lo por sigui pidi permiso en caso nan kier bin biba y of traha na Aruba. Entre otro a defini cu migrantenan di conocemento ta welcome na Aruba, tambe ta yama bon bini na Nomads y Start Ups kendenan ta emprendedornan cu ta traha remote pa mercadonan cu no ta Aruba, tambe inversionistanan innovativo den e sectornan prometedor (logistica, agricultura moderno etc) of sectronan existente ta welkom, relaciona cu e creacion di cuponan di trabou nobo cu ta sumamente necesario pa cubri e necesidad cu tin bou di e grupo defini como preferente riba e mercado laboral.

Pues a orienta y modela e maneho di admision pa asina por logra metanan social economico y garantisa e efectonan desea.

Pronto lo por haya e informacion aki disponibel riba e website y facebookpage di DIMAS riba e metanan di estadia nobo y nan rekisitonan.

Press@qcaruba.com

Quanten Consortium Aruba, LLC ready to invest up to $3.5 billion into a 100 year old refining tradition in Aruba!

SAN JOSE, CA – (Dec 11, 2020) Quanten Consortium Aruba, LLC (QCA, LLC) has been selected to finalize the Due Diligence process, and negotiate and sign a binding contract to refurbish, upgrade and Operate the Aruba Refinery and Terminal Complex. We are pleased that Refineria di Aruba N.V. (RdA) on behalf of the Government of Aruba have selected QCA, LLC to cooperate, negotiate in good faith and sign a binding contract to refurbish, upgrade and to operate the existing Aruba Refinery and Terminal complex.

The Aruba Refinery Project as managed by the Quanten Consortium and supported by the experience of RdA will be to the highest standard of engineering rigor, financial transparency and workplace safety in the world, in compliance with several of US Government directives.

QCA is very enthusiastic at the prospect of assisting Aruba with the Refurbishment, Upgrade and Operation of the Aruba Refinery and Terminal complex and we are committed to ensuring that the benefits of the refinery are realized by the people of Aruba. QCA's CEO Jeff Meyers stated: "This day marks the beginning of a new chapter. Together with our participating companies, in the long term, we intend to support the refinery to significantly improve its financial performance and. The closing of the deal will be a remarkable achievement for QCA and for the Aruban citizens."

QUANTEN

CONSORTIUM ARUBA, LLC

'THE ESSENCE OF POWER'

Quanten Consortium Aruba, LLC has put together a consortium for the Modifications, Operations, and Sustainable Transformation of the Aruba Oil refinery: A Refinery with significant development potential, including the highest level of feedstock flexibility. In selecting the participating companies

for this project, we evaluated the best in the business for their capacity, innovativeness, experience, and willingness to perform in Aruba.

The refinery's configuration will be one of the most technologically advanced in the Caribbean region with significant prospects for expansion. We are also considering the development of a separate petrochemical plant within the complex that utilizes by-products from the refinery.

The availability of all the necessary infrastructure (a deep-water port, storage terminals and own power station are part of the transaction), will provide QCA with significant operational synergies and help improve the refinery's economics. A further synergy will be derived from cross-supplies of products to South America, Asia Pacific, Caribbean, Africa and European markets.

Preliminary engineering and cost assessments show that the refinery and terminal complex require up to $3.5 billion for refurbishment and upgrades that will allow the refinery to operate at 235,000 bpd capacity, with a potential increase up to 350,000 bpd capacity, to produce consumer ready products such as gasoline, diesel, jet fuel, heating oil, etc.

About Quanten Consortium Aruba LLC

Quanten, LLC, headquartered in San Jose, California will lead a consortium of companies, and partner with renowned leaders in industry, finance and academia to manage the Aruba Refinery and associated infrastructure. Our team will:

- Refurbish the refinery, reopen and operate at 235,000 barrels/day capacity while producing current grade of products

QUANTEN
CONSORTIUM ARUBA, LLC
'THE ESSENCE OF POWER'

- Upgrade the refinery to operate at maximum capacity of 350,000 barrels/day and modify to produce consumer ready end products such as gasoline, aviation fuel, diesel, home heating oil, etc.

We evaluated the best companies in the business for their capacity, innovativeness, and willingness to work before deciding to bring them on board as technical or financial partners to address the critical areas.

We also have projects for Economic Development Considerations. This initiative is centered around Economic Development and addresses a spectrum of development opportunities across a range of sectors. These development projects will support the government's drive for socio- economic transformation and poverty alleviation for the people of Aruba. Additionally, we will create new ventures for fuels marketing, supplying Aruba and all surrounding islands/countries...

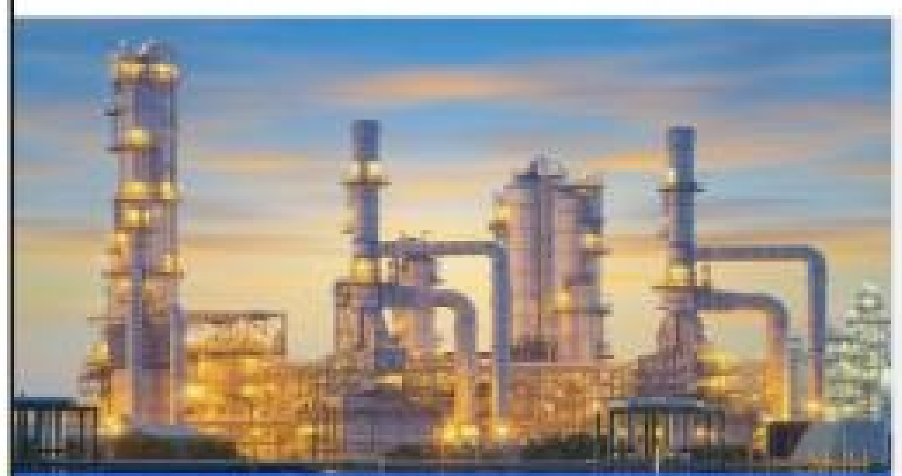

Forward Looking Statement

The statements in this press release that are not historical statements, including statements regarding future financial performance, are forward-looking statements within the meaning of the federal securities laws. These statements are subject to numerous risks and uncertainties, many of which are beyond the company's control that could cause actual results to differ materially from the results expressed or implied by the statements. These risks and uncertainties include, but are not limited to: changes in the laws, rules and regulations relating to any aspects of the Company's business operations, general economic, market and business conditions, including capital market developments, changes or volatility in interest rates, foreign exchange rates, equity prices or other rates or prices, changes in the demand for or price of oil and/or natural gas; protection of intellectual property rights; compliance with environmental laws; changes in government regulations and regulatory requirements; the actions and developments of the Company's competitors and the effects of competition in the refinery industry on the demand for, and price of, the Company's products and services, various business opportunities that the Company may or may not pursue, changes in population growth and other demographic trends, the Company's ability to identify, measure, monitor and control risks in the Company's business, including its ability to manage and adapt its overall risk profile and risk management practices, its ability to properly price its products and services and establish reserves for future products, seasonal fluctuations and factors beyond the Company's control. Subject to the requirements of the Government Regulations, the Company does not intend to update or otherwise revise such forward-looking statements, whether as a result of new information, future events or otherwise. As a result of these and other risks, uncertainties and assumptions, forward-looking events and circumstances discussed herein might not occur in the way the Company expects, or at all. Accordingly, you should not place reliance on any forward-looking information or statements. All forward-looking statements herein are qualified by reference to the cautionary statements set forth in this section.

Aruba Refinery Upgrade
and
New Industrial Developments

Media Package

December 2020

Announcement

On December 7, 2020 ....

The Prime Minister of Aruba informed Parliament in an open session that Quanten Consortium Aruba, LLC (QCA, LLC) has been selected to finalize the due diligence process, and negotiate and sign a binding contract to refurbish, upgrade and operate the Aruba Refinery and Terminal Complex.

What We'll Do

Our Focus
- Support the Government of Aruba in diversifying the economy, creating jobs and growing the GDP
- Extend the benefits of the Refinery to the people of Aruba through Economic Development Initiatives

Our Goals
- Develop a world class refinery in Aruba with the best companies in the world as sub-contractors
- Make the Aruba refinery a world model for environmental sustainability with the support of UC Berkeley's RAEL (led by a Nobel Laureate)

Partners and Team Members

QCA, LLC has assembled a team of industry giants and the best-in-class companies supported by top tier academic institutions ready to finance, refurbish, upgrade and operate the Aruba Refinery – subject to the conclusion of negotiations with the companies and the signing of definitive agreements.

QCA, LLC also has advocacy by the US Government through the US Commerce Department and the US State Department.

Project Cost

Preliminary Estimated Project Cost is $3.5 Billion

Preliminary Estimated Cost Details:

• Refinery Refurbishment:	~$1.5 Billion
• New Refinery Units (FCC, Sulfur Plant, Etc.):	~$1.4 Billion
• Terminal, Tank Farm, Utilities, Others:	~$0.6 Billion

Funding Sources:
- Private Equity Group
- Institutional Funds

Contractors– subject to contract signing

Subcontractors may include companies such as KBR. KBR is a US EPC company and a global provider of comprehensive solutions for the energy and chemicals markets. KBR's experience as a technology developer and licensor, along with their comprehensive studies and proven project delivery capabilities, has resulted in KBR licensing, designing or constructing more than 60 greenfield refineries and well over 1,000 refining units of every type and size the world over.

Role on the Aruba Refinery Project may be:
- Owner's Engineers
- Engineering, Studies, Design and Technology License
- Project Management Consultants/Advisors

Subcontractors may include companies such as McDermott International. McDermott is a multinational engineering, procurement, construction and installation company with operations in the Americas, Middle East, the Caspian Sea and the Pacific Rim. McDermott it is headquartered in the Energy Corridor area of Houston, Texas. McDermott provides a complete spectrum of engineering, procurement, fabrication and construction services for the refining industry.

Role on the Aruba Refinery Project may be:
- Engineering, Procurement and Construction

Contractors– subject to contract signing

RAEL is a unique research, development, project implementation, and community outreach facility based at the University of California, Berkeley in the Energy and Resources Group and the Department of Nuclear Engineering. The laboratory's mission is to help energy technologies contribute to environmentally sustainable development in both industrialized and developing nations while also addressing the cultural context and range of potential social impacts of any new technology or resource management system.

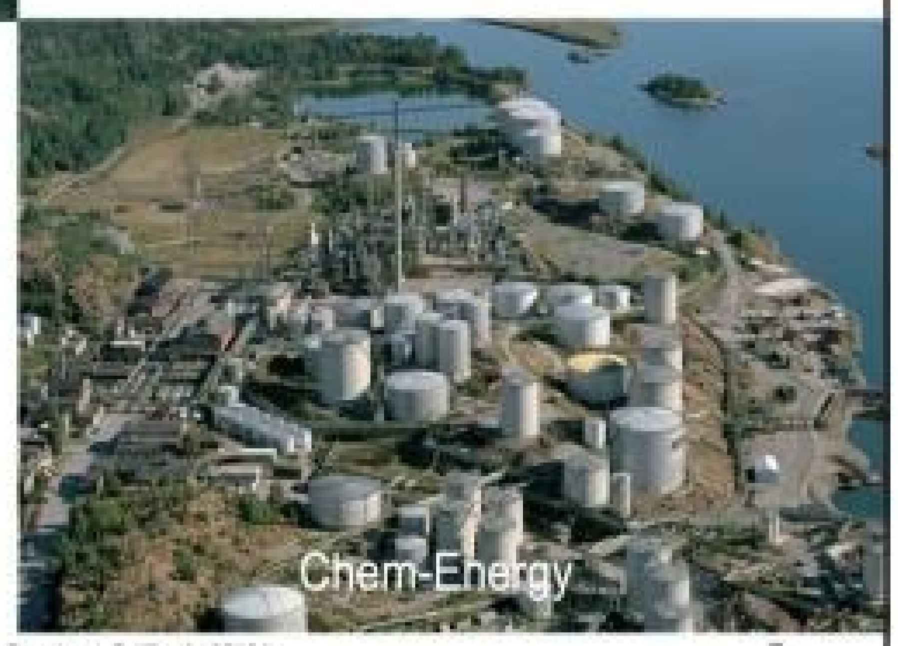

Role on the Aruba Refinery Project may be:

- Environmental Assessment and Monitoring Solutions
- Renewable energy solutions
- Support green energy policy and solutions for Aruba

Subcontractors may include companies such as Chem-Energy. Chem-Energy Corporation is a refinery of crude oil, a petroleum products trading company, and a developer of projects related to refineries, power and petrochemicals. Chem-Energy are distributors of degreasers and lubricants. Chem-Energy also manages and operates oil terminals and vessels that carry crude oil and refined petroleum products.

Role on the Aruba Refinery Project may be:

- Refinery Operations

Partners/Members Technical Roles

Quanten, LLC

Quanten LLC is a global standout in environmental sustainability through thoughtful, equitable, economic progress. The drivers of sustainable energy systems include the mix of scientific, technical, and policy during the design phase, with a keen eye on the financial, execution and operations phase.

Role on the Aruba Refinery Project

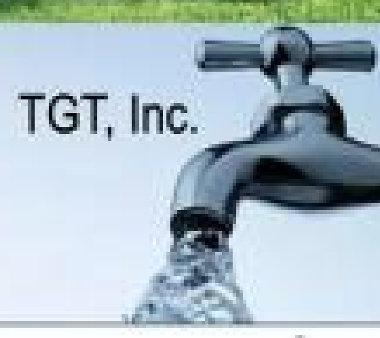

- Power Generation using renewable energy
- Support Economic Development Initiatives
- Project Management
- Business Development

TGT is a high technology company focused on high technology systems, services and infrastructure deployment in Emerging Markets. TGT teams with government, business and industry leaders to develop Transformational Projects - individual or series of interventions that support deep, systemic, and sustainable change with the potential for large-scale impact in an area of a major development challenge.

Role on the Aruba Refinery Project

- Economic Development Initiative Projects
- Collaborate with universities for training
- Collaborate with local businesses for local content implementation

TGT, Inc.

REOI Response Summary

REOI Track – B

Additional industrial developments at locations still available within the refinery area, e.g. LNG transshipment, petrochemical facilities, alternative clean industry, renewable energies, etc.

Additional Economic Development for Aruba

The Quanten Consortium Aruba LLC supports the government's drive for diversification of the economy and for socio-economic transformation.

The Quanten Consortium Aruba LLC will work with appropriate government officials to identify areas of need for development. QCA will work with others to facilitate the development of identified projects. The areas under consideration for Economic Development include but are not limited to:

- **Petrochemical Plant –** Polyethylene or Polypropylene
- **Gigabit Internet** – Gigabit internet capability on the island to support high technology work that will move to Aruba from the US and other countries. Establish the backbone for the **Aruba Digital Island**
- **Technology Center** - Technology Center that leverages the availability of gigabit internet to attract high technology companies in the US and elsewhere. Work with the John F. Kennedy Education Center for training. Provide scholarships for training in the US
- **Medical Tourism** – Specialist hospital for cancer and heart diseases that will attract medical tourists.
- **Power Plant**
- **Potable Water Plant**
- **Wastewater (Brown water) Treatment Plant**
- **Musical Festivals** – Facilitate yearly musical festivals

Benefits of our Approach

1. $3.5 billion of Foreign Direct Investment
The Quanten Consortium Aruba LLC will inject approximately $3.5 billion of foreign investment into Aruba. This will help to provide much needed economic stimulus to the country and exemplifies the US model of economic development through private sector participation.

2.0 Economic Stimulus
QCA investment will provide much needed economic stimulus from the United States private sector that will help the economy of Aruba during the world economic crisis

3.0 Jobs/Employment
The Aruba Refinery Project as implemented by the Quanten Consortium Aruba LLC will create significant number of jobs for Arubans by partnering with local companies for major portion of the refinery refurbishment. The QCA will also rely significantly on local labor for the operation. For every job created directly by the QCA, the local economy will create approximately 3 more supporting jobs.

4.0 Support by the US Government
Quanten Consortium Aruba LLC has advocacy by the US government through the US State Department and the US Commerce Department.

5.0 Management and Transparency
The Aruba Refinery Project as managed by the Quanten Consortium Aruba LLC will be to the highest standard of engineering rigor, financial transparency and workplace safety in the world, in compliance with several of US Government directives. Although the project is in Aruba, the QCA is still under the purview of US regulators and business practices.

6.0 Affiliation with University of California, Berkeley
The Quanten Consortium Aruba LLC will affiliate with the UC Berkeley Renewable and Appropriate Energy Lab (RAEL) that will provide guidance on sustainable development.

7.0 Local Content
Quanten Consortium Aruba LLC will dedicate a very large portion of the development budget to local content. During operations, a large portion of the business will also be directed towards local content.

8.0 Corporate Social Responsibility
The Quanten Consortium Aruba LLC will put a heavy emphasis towards supporting local community efforts such as local schools, local sports teams and local competitions

9.0 Economic Development Initiative
In addition to the customary Local Content Initiative, QCA will support Economic Development for Aruba over and above the usual Corporate Social Responsibility programs. The Economic Development Initiative includes:

a) support for the development of
- technology center, gigabit internet, specialist hospital (medical tourism), renewable energy, brown water treatment plant, and other socially beneficial infrastructure

b) support development of international music festivals

10. Capacity Building
On-the-job training of Arubans. Training will be in all aspect of refinery construction and operations including technical and management training

11. Local Business Mentoring
The Quanten Consortium Aruba LLC will use one of the best practices in the United States of Mentoring small businesses. The QCA will mentor small local businesses and help them acquire world class business operations skills.

12. Training and Scholarships
The Quanten Consortium Aruba LLC will sponsor students through scholarships to attend US higher institutions of learning such as UC Berkeley, University of Houston and San Jacinto College (examples include the San Jacinto College Maritime Program that provides training for all professional mariners from the entry-level deckhand on an inland towboat to Unlimited Tonnage Masters on the world's largest ships – skills required for terminal operation).

Summary

Quanten Consortium Aruba, LLC is ready willing and able to resume oil processing activity at the Aruba Refinery through lease, modernization and operation of existing installations.

- We have assembled, pending contract signing, some of the world's best oil and gas companies for the Aruba Project.
- We have US government advocacy through the US State Department and the US Commerce Department.
- We have proposed a unique and very robust Economic Development Initiative that will help diversify the economy of Aruba including turning Aruba into a Digital Island.
- Our approach to the Aruba Refinery Project will provide hundred of direct and indirect jobs.
- We have started the engineering assessment process that will accelerate the re-start of the refinery.
